

Intelligent Transformation in the **AI Era**

Enterprise Workflow transformation | Intelligent Operations | Intelligent CX

We are a digital technology services company building scalable platforms with Cloud, Data, and AI as the main pillars - serving startups to Fortune 500 enterprises with 2000+ engineers, AI embedded at every phase, and lean delivery processes.

Most organisations have AI pilots. Few have AI in production. We close that gap, from landscape assessment and AI CoE setup to live, governed, scalable AI systems delivering measurable ROI. We help enterprises leverage AI for achieving key business outcomes and redefining ways of working.

|------------------------|------------------------|-------------------------------|--------------------------------|------------------------------|
| Founded 2008 | Newers 2200+ | AI Specialists 100+ | Client Locations 25+ | Delivery Centers 6 |
|------------------------|------------------------|-------------------------------|--------------------------------|------------------------------|

Offices in **India, USA, Australia, Singapore & UAE**

Our AI Service Stack

Intelligent Operations & Workflow Transformation

- GenAI-led process automation
- AI copilots for enterprise workflows
- Knowledge augmentation & decision support

Intelligent Customer Experience

- GenAI-powered digital experiences
- Conversational AI & virtual assistants
- Personalization using real-time intelligence

Powered by AI capabilities

Generative and Agentic AI

RAG pipelines, LLM fine-tuning, Multi agent orchestration, Multi-Modal AI

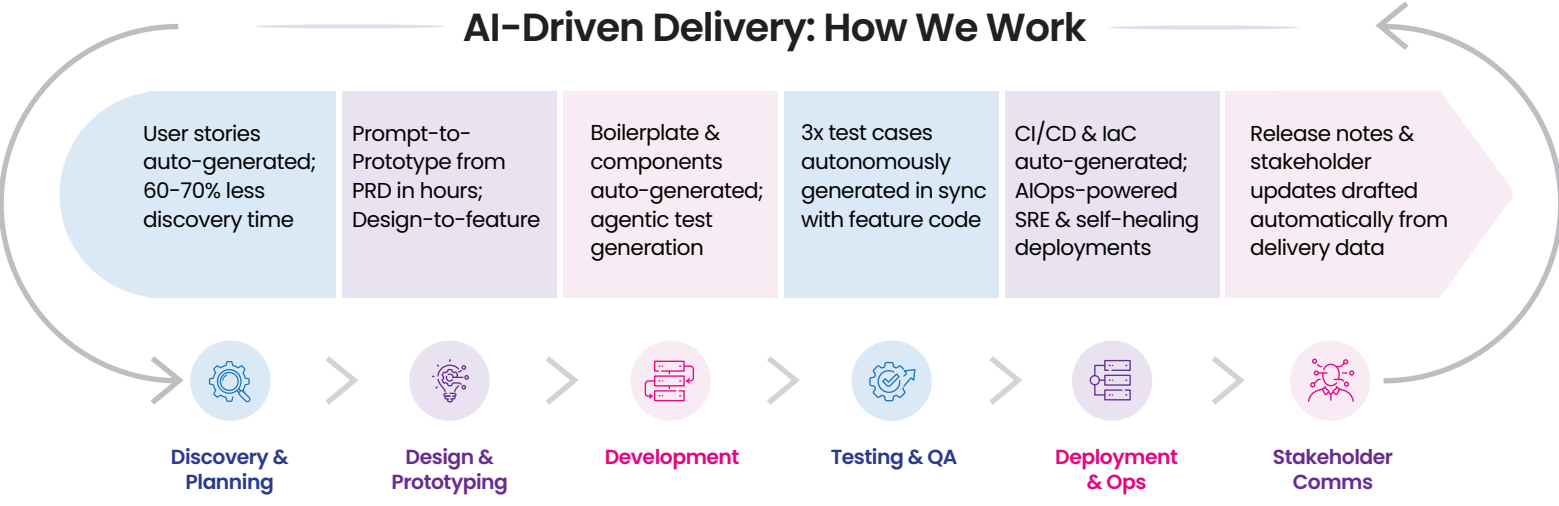

Data Science, ML, and Deep Learning

Predictive & prescriptive analytics, NLP, recommendation engines & personalisation, MLOps

Computer Vision and AI Ready Data

Object detection, image classification, video analytics, anomaly detection

AI-Driven Delivery: How We Work

Trusted by Global Enterprises

AI Delivery Impact : Measurable Outcomes

| | | | | |
|--------------------------------|--|------------------------------------|-----------------------------------|------------------------------------|
| 50% Faster migration | 2x Improvement in campaign performance | 30% Faster time to value | Early anomaly detection | 20% Increased engagement |
|--------------------------------|--|------------------------------------|-----------------------------------|------------------------------------|

Our IPs & Digital Accelerators

AI-gateway, governance, guardrails

GenAI-based natural language search

Agentic AI for real-time insights & actions

Adtech brand-safety platform

15% Ad spend recovered, 8X campaign throughput, 60% less manual review

Natural Language to Live business dashboards

4X faster query-to-answer, 30% fewer analyst tickets

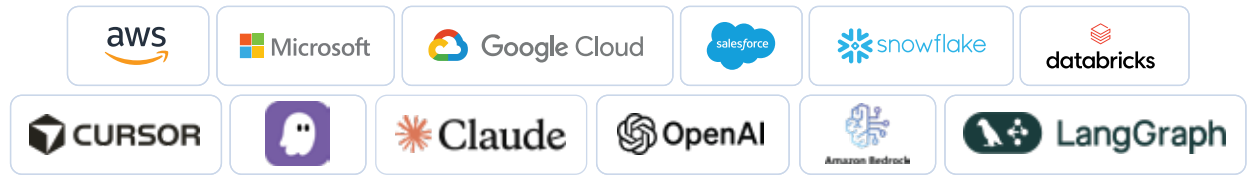

AI-powered hyper-personalisation

Lower support cost, higher engagement rate

Why Enterprises Partner with Us

| | | | | |
|---|--------------------------------------|---|----------------------------|-------------------------------------|
| Full-stack AI under one roof (GenAI, Agentic, ML, Data Science) | Pre-built solutions and accelerators | Experience with AI applications in production | GenAI embedded across SDLC | Strong Cloud + Data + AI foundation |
|---|--------------------------------------|---|----------------------------|-------------------------------------|

Platforms and Partnerships

Start Your AI-Driven Transformation Journey

TO THE NEW partners with forward-thinking organizations to create scalable, intelligent, and future-ready digital ecosystems.

Ask us how to

- Move from AI pilots to enterprise-scale product delivery
- Modernize legacy systems without disrupting operations
- Build cloud-native platforms with AI embedded at every phase
- Set up GCCs, offshore centres, or dedicated engineering teams
- Accelerate QA, DevOps, and security with AI toolchains
